# Khajamastan Bellamkonda

Principal Member Technical Staff at **Oracle**

+91-7207810602 | khazamastan@gmail.com | Bangalore, India | LinkedIn

**Previous companies:**

## Professional Summary

Lead Front-End Developer with 10+ years of experience scaling web applications for global product companies. Delivered a 60% reduction in development effort and increased customer engagement by 20% by designing micro front-ends, optimizing CI/CD pipelines, and integrating AI-driven tools to accelerate developer velocity. Proven ability to bridge the gap between complex technical systems and business impact while mentoring engineering teams and driving cross-functional Agile delivery.

## Technical Skills

**Frontend:** React.js, Next.js, Angular, TypeScript, JavaScript, Context, Redux, Mobx, GraphQL, Micro Front-ends (Module Federation), HTML5/CSS3, SASS/SCSS, Styled Components, A11y (accessibility).

**Backend:** Node.js, Express.js, GraphQL, RESTful API Design, Server-Side Rendering (SSR), WebSockets, NoSQL, MongoDB

**Testing:** Webpack, Vite, Babel, Jest, Cypress, Playwright, React Testing Library, Lighthouse, Performance Profiling, Code Reviews.

**AI Tools & DevOps:** Codex, Cline, Copilot, AWS, Oracle Cloud Infrastructure (OCI), CI/CD.

## Work Experience

### Principal Member Technical Staff

Oracle

Bangalore . April 2022 - Present

- Accelerated incident resolution and reduced manual overhead by developing an AI agent utilizing DevOps MCP to automatically triage canary and new region build tickets.
- Elevated team velocity and code quality by mentoring **5+** mid-level engineers, standardizing **React** best practices, and leading daily **code reviews.**
- Accelerated sprint delivery by leading technical planning sessions and aligning cross-functional design, backend, and product teams on API contracts and UI feasibility.
- Increased customer engagement by **20%** by revamping Redwood-themed notification emails and Alloy customization options.
- Maintained **100%** operational continuity during outages by implementing cross-region disaster recovery workflows.
- Accelerated feature delivery by **30%** and reduced maintenance effort by **40%** by bootstrapping a **MAUI**-based next-gen Identity console.
- Automated canary health checks every **15** minutes by migrating Team City pipelines to **OCI** build systems and unifying repositories in **OCI DevOps SCM.**
- Reduced development effort by **60%** by consolidating multiple profile experiences into the reusable **One My Profile** UI framework.
- Raised **React** test coverage from **39%** to **70%** by utilizing **React Testing Library** and **Jest** while co-authoring functional requirements with product managers.

**Senior Software Developer**
Xactly Corp
Bangalore . June 2021 - April 2022

- Improved application load times by **20-30%** by migrating front-end builds to **Webpack** with advanced code splitting.
- Validated deep foundational system design capabilities by building a high-concurrency, real-time chat application utilizing Vanilla **JavaScript** and **WebSockets** to handle real-time data streams.
- Delivered the **React** and **TypeScript Objectives** product by bootstrapping the codebase, writing end-to-end tests, and configuring **CI/CD** deployments.
- Built the scalable **Incent** module for incentive compensation by utilizing **React.js**, **Node.js**, **Angular**, and **Webpack**.
- Accelerated **Objectives** UI delivery timelines by creating a config-driven **React** component framework.

**Software Development Engineer II**
Nineleaps Technology
Bangalore . May 2020 - June 2021

- Integrated legacy applications seamlessly by migrating them to a micro front-end architecture via **Module Federation**.
- Rendered complex UI from declarative definitions by building a config-based **React** framework.
- Delivered comprehensive Vendor Management System modules (Interview, Onboarding, Performance) by utilizing **React.js**, **Node.js**, **Webpack**, and **Styled Components**.
- Improved development efficiency and application performance by automating build and deployment pipelines.
- Raised system reliability by integrating **Cypress**-driven unit and end-to-end testing frameworks.

**Senior Software Engineer**
PwC
Bangalore . July 2018 - May 2020

- Led the development of a cybersecurity digital risk management dashboard for Fortune **500** clients by collaborating with cross-functional security and product teams.
- Enhanced front end development and performance by migrating a legacy Aurelia application to **React**.
- Improved code quality across the team by instituting strict development best practices and code review standards.
- Improved load times by **30-40%** and cut bundle size by **50%** by moving the build system to **Webpack**.

**Senior Front-End Developer**
Minewhat Inc
Bangalore . August 2016 - July 2018

- Owned the user experience for an **ML-driven** e-commerce recommendation platform by reporting directly to the CTO and aligning UI with business goals.

- Built responsive recommendation widgets and banners by utilizing **React.js**, **MobX**, SCSS, and Stylus.
- Enabled customers to live-edit and theme widgets to match site branding by creating a visual editor.
- Developed comprehensive UI frameworks by implementing sliders, widget placement tools, and inline text editing features.
- Configured design elements (colors, fonts) and dynamic image/content substitution in **SVG** banners by creating a reusable template framework.

---

**UI Developer**
Thrymr Software
Bangalore . February 2015 - August 2016

- Built the **iStyle** room designer application incorporating a points system by utilizing **JavaScript**, **Canvas**, **Angular**, and **Fabric.js**.
- Improved employee collaboration and leave management by implementing the Thrymr Internal Portal, a Slack-like application featuring real-time notifications and attendance tracking.
- Maintained a comprehensive weight-loss program dashboard by developing recipe authoring, diet planning, and weight tracking features.

## Education

**Rajiv Gandhi University of Knowledge Technologies**
B.Tech in Mechanical Engineering
R.K. Valley, Andhra Pradesh, 2014

## Awards

- Won Thrymr Software Spot Award for Best Performance.
- Named 2021 Tech Champion by Nineleaps Technology Solutions.
- Received Nineleaps Feather On the Hat award in January 2021.
